RALEIGH, N.C., August 8, 2019 - BioDelivery Sciences International, Inc. (NASDAQ: BDSI), a rapidly growing commercial-stage specialty pharmaceutical company dedicated to patients living with chronic conditions, today reported strong financial results for the second quarter ended June 30, 2019, as well as the following operational and performance highlights:

Key Business Highlights

- Total company net revenue increased by 144% versus the prior year period to a new all-time high of \$29.7 million. This growth was driven by BELBUCA® (buprenorphine buccal film), CIII sales of \$24.1 million, an increase of 147% versus the prior year period, and the addition of Symproic® (naldemedine) tablets 0.2 mg to the commercial portfolio.
- Total BELBUCA prescriptions of more than 80,000 for the quarter was the highest ever for any three-month period. In addition, prescription growth for BELBUCA reached an all-time year-over-year record increase of 44,560 prescriptions, representing a 125% increase year-over-year and a 23% increase versus the prior quarter.
- Achieved a new all-time high of 6,579 unique BELBUCA prescribers during the quarter.
- Delivered highest ever number of quarterly prescriptions for Symproic achieving greater than 14% quarter-over-quarter growth and 40% growth versus prior year.
- Significantly strengthened financial position through debt refinancing, dramatically lowering cost of capital and extending maturity.

“The second quarter was highlighted by dramatic accomplishments across our entire organization and has positioned us to further build upon our commercial success,” stated Herm Cukier, Chief Executive Officer of BDSI. “We have significant momentum with our core products and have strengthened the company’s financial position. Our excellent performance in the second quarter is the fifth consecutive quarter of sustained and rapid growth. I believe our future is very promising, and as we raise our full-year BELBUCA and total company net sales expectations for the second time this year, we have great confidence in our growth trajectory into 2020 and beyond.”

The company again increased its expectations for full-year 2019 BELBUCA net sales to \$90 – \$93 million, from the previous level of \$83 – \$88 million. The company also raised its total 2019 net sales expectations to \$101 – \$105 million, from the previous level of \$92 – \$100 million. Total net revenue expectations include \$7 – \$9 million of forecasted Symproic net sales, which is in line with the company's previous expectation.

With the strong performance achieved over the last five consecutive quarters, coupled with a solid balance sheet supporting the execution of the commercial growth plan, the company is raising its long-term combined net sales expectations for BELBUCA and Symproic to \$425 – \$500 million.
